MIRANDA

Godvil

— ACTOR

About me

I grew up in Aarhus and moved to Frederiksberg in September 2025.

Since graduating from the Danish National School of Performing Arts I have, alongside stage work, taught children and young people at Odense Drama School and, since March 2025, worked as a motion capture actor for IO Interactive on the AAA game 007 First Light.

I am inspired by bringing other art forms into my work, and my approach is very physical, musical and experimental.

I thrive when the vision is clear but the method is open, as in devising or viewpoints processes.
